

Dear madam, dear sir,

Our Internet portal Cardio - Guide (<http://www.cardio-guide.de>) has been an important and well respected introductory and referral agency for heart patients in German-speaking countries for years. The site offers them comprehensive and detailed information on more than 400 cardiology centers and rehabilitation clinics in Germany, Austria, Switzerland, and the Benelux.

We are now planning to expand internationally and would like to make our range of information and services available to potential patients in your country.

German cardiac surgery is renowned around the world and is a close second behind the United States, also as a specialty in pediatric cardiac surgery. Due to difficult entry requirements into the USA, Germany is an excellent alternative for your patients who require cardiac surgery.

We possess the most up to date databank in this special medical field and have excellent contacts. This has been acknowledged by a link on the website of the German Society of Cardiology (<http://www.dgk.org/links/index.aspx>). This is also the case with the European Society of Cardiology (http://www.escardio.org/navigation/cardio_links.htm) in search engines. We are also able to personally reach all clinical directors of cardiac surgery centers by email, since we have all their respective email addresses. In order to further emphasize our trustworthiness, we also consult with our medical advisers. Amongst other, Professor Dr. Lange, Director of the German Heart center in Munich, and Professor Dr. Mohr from the Heart Center in Leipzig. You can see the whole list of our medical advisers on our website under „Med. Beirat“.

We are happy to send you more information for an individual service together with a respective cost estimate on request. This can only be done by Email or fax, and is also available in Arabic. All data and documents that you send to us regarding a patient and his/her relatives or family members will only be used to find the appropriate surgical center; once the assignment is finished, the documents are disposed of and destroyed following legal regulations.

We even process emergency cases in an urgent and un-bureaucratic manner.

Payment for our services can be processed with a worldwide accredited credit card in a simple and practical manner.

If you feel that our services are of interest to you, please contact and we will be happy to further assist you.
